Harry McLean

Vadim Mitko

In our game evaluation, we employed a task-based user evaluation approach, followed by structured interviews. In the first part of the interview, participants were asked to perform the predetermined task decided by the evaluation team with a single goal. A scribe was present to collect the data with a moderator. This was done to observe the problems that the system could display when interacted in an unpredicted manner. Concurrent Verbal Protocol was used during the first part of the evaluation. At the end of this, users were presented with a preset of questions to determine the engagement and the usability of the game, and to gather detailed feedback

Our 80% recruits were people aged 18 to 25, as this age group closely aligns with the university experience. The data was collected in note-written form as we were working with a smaller cohort of recruited users. The data from task based user evaluation was organized in a tabular format and the answers from the questionnaire at the end were transcribed into a word document.

The users were asked to rate the problems encountered on a scale of 0 to 4.

- 0 No Problem (indicates the problem was either not encountered or not an issue to the user)
- 1 Cosmetic Problem
- 2 Minor Problem
- 3 Major Problem
- 4 Catastrophic

Problem ID	Usability Problem	Individual ratings from users (on a scale of 0 to 5)					Proportion of users who encountered the problem (in unit scale)
		P1	P2	P3	P4	P5	
PR001	The cooldown timer is not intuitive.	2	0	0	3	0	0.4
PR002	The score increment/decrement is unclear.	3	2	3	2	2	1.0
PR003	The game has no constraints of money in it.	1	0	0	0	0	0.2
PR004	The events are not interactive.	2	1	0	2	2	0.8
PR005	There is no boundary on the map.	2	0	0	0	0	0.2
PR006	The user cannot get out of the building mode.	3	0	0	2	0	0.4
PR007	The user has difficulty recognizing the building name and type.	1	1	0	2	0	0.6
PR008	The map does not have a boundary.	2	0	0	0	0	0.2
PR009	The leaderboard and the achievements are not displayed on the screen.	0	0	0	0	4	0.2
PR010	The screen resizing feature was unclear.	0	1	0	1	0	0.4
PR011	The timer does not start automatically when the game restarts.	0	0	0	4	0	0.2
PR012	The game is not accessible, lacking in giving the user necessary feedback.	2	1	0	2	0	0.6
PR013	The zoom feature on the map needs prior knowledge to operate.	0	1	0	1	0	0.4
PR014	The game did not have a clear instruction/guide on how to play.	0	0	1	2	0	0.4
